

Table Of Contents

Preface	xvii
----------------------	-------------

Section I:

Introduction to a Market Economy	1
---	----------

A Brief Background to Americas Market Economy	2
---	---

The dimensions of a market economy	2
--	---

Chapter 1: Breaking the Ice	5
--	----------

The Aims of the Economist	5
---------------------------------	---

Solving Specific Economic Problems	6
--	---

What Is Economics?.....	7
-------------------------	---

Macroeconomics and Microeconomics: Economic Principles From Two Perspectives	8
--	---

What Is The Economist’s Method?.....	8
--------------------------------------	---

The Citizen and Economic Policy.....	10
--------------------------------------	----

Applications: Concrete Examples of Abstract Ideas.....	10
--	----

End-of-Chapter Summaries.....	10
-------------------------------	----

Mathematics De-emphasized	11
---------------------------------	----

Positive Versus Normative Economics	12
---	----

A Word About Words	13
--------------------------	----

Application I: The Economic Crisis of 2008-2011: Background, Causes, and Effects	14
--	----

Background	14
------------------	----

Causes	14
--------------	----

Effects: How Quickly Markets can Change	15
---	----

Falling Home Prices and the Availability of Housing	16
---	----

Effects on Governments.....	17
-----------------------------	----

The Effects of the Crisis: A Philosophical Note.....	17
--	----

Application II: When Do Government Stimulus Plans Succeed?.....	17
---	----

A General Remark	18
------------------------	----

Application III: Self-Interest, The Key to a More Productive Future?	19
--	----

Self-Interest: Key to All Characters.....	19
---	----

Homo Economicus.....	20
----------------------	----

Private Citizens Want Private Profits	20
---	----

Do Corporations Value Profits Above All Else?.....	20
--	----

The Radical View	21
------------------------	----

The Psychology of Decision Making.....	21
--	----

Application IV: Whither Social Security?	22
--	----

Application V: Compound Interest and why it pays to save.....	23
---	----

Application VI: Public Education: Will Vouchers Lead To Improvement?.....	24
---	----

Application VII: Where is Health Care Headed?.....	25
--	----

The Health Care Reform Act of 2010.....	25
---	----

Application VIII: The European financial crisis.....	26
--	----

Summing Up	27
------------------	----

Key Terms	29
-----------------	----

Questions.....	30
----------------	----

Chapter 2: Scarcity and Economic Development	31
---	-----------

The Results of Market Exchanges: The Invisible Hand	31
---	----

Scarcity: Source of Basic Economic Questions	32
--	----

An Unreal World: No Scarcity	33
------------------------------------	----

Back to the Real World: Basic Questions.....	33
--	----

Is Scarcity Meaningful Today?.....	34
------------------------------------	----

Viewing the Choices: The Production-Possibilities Curve.....	34
The Production-Possibilities Table.....	35
Graphing the Production-Possibilities Curve.....	36
Economic Growth: Shifting the Production-Possibilities Curve.....	36
Employment, Full Employment, Unemployment, and Underemployment.....	37
A Word of Caution.....	37
Increasing Opportunity Costs: Why Is The Curve Shaped That Way?.....	38
What Is the (Positive) “Cost of the Lunch”?.....	38
Resources Are Specialized.....	39
Mental Reservations.....	40
A Classical Explanation of Growth: Shifts in Production Possibilities.....	41
Institutions Play a Very Important Part in Decision Making.....	41
Economic Development: How Do Poor Countries Become Rich?.....	42
Economic Determinism.....	44
Basic Questions About Economic Development.....	44
How Do You Measure Well-Being?.....	44
How Great Is The Income Gap?.....	45
Adjusting Per Capita GDP Comparisons for Differences in the Cost of Living.....	46
What Is A Significant Increase In Real Per Capita National Product and Income?.....	47
Resistances to Growth and Development.....	47
Social and Cultural Resistances.....	47
Population Growth.....	47
Future Population Growth: Will the Pressures Diminish?.....	48
Technological and Technical Resistances.....	50
Complementary Investment.....	52
What About Natural Resources?.....	53
Is The Income Gap Widening Or Closing?.....	54
Is There Hope For Developing Countries?.....	56
How Long Will It Take?.....	57
Summing Up.....	57
Key Terms.....	59
Questions.....	60
Chapter 3: Supply and Demand Price Determination in Competitive Markets.....	63
What Is Competition?.....	64
How Are Prices Set? Supply And Demand.....	64
Demand.....	64
An Individual Demand Curve.....	65
Changes in Quantity Demanded Versus Changes in Demand.....	67
Individual Demand: Summing Up.....	68
Market Demand.....	69
Supply.....	70
What Is Supply?.....	70
What Do Supply Data and the Supply Curve Tell Us?.....	71
Why Do Supply Curves Slope Upward?.....	72
Why Do Supply Curves Shift?.....	72
Adding Up To Market Supply.....	73
Summing Up: Difference Between Movements Along and Shifts In Demand and Supply Curves.....	74
Equilibrium Pricing.....	74
Conditions for Competitive Pricing.....	77
Application I: Should We Let Supply and Demand Work? Rent Controls and the Price of Housing... ..	77
Government Determined Prices: The Arguments.....	78
Are Rent Controls Effective? (The Best Case).....	78
Are Rent Controls Effective? (The Worst Case).....	79

The Dynamics of Rent Controlled Housing	80
Illegal or “Black Markets”	81
The Future of Rent Controls	82
Summing Up	82
Key Terms	85
Questions	86
Chapter 4: Components of an Economic Society	89
The Circular-Flow Model	89
The Simple Model	89
The Complex Model	91
What Does The Model Show?	91
The Sources of Income: Functional Distribution	93
The Way Households Allocate Their Income	94
The Way Family Income Is Distributed	94
Other Caveats About Income Inequality	95
Economic Implications of Inequality in Income Distribution	97
Sole Proprietorships	98
Advantages of a Sole Proprietorship	98
Disadvantages of a Sole Proprietorship	98
Partnerships	99
Advantages of a Partnership	99
Disadvantages of a Partnership	99
Corporations	99
Advantages of a Corporation	100
Disadvantages of a Corporation	100
Big Business and the American Corporation	101
Expenditures: What Do They Spend All That Money On?	104
Taxation	104
Principles of Taxation	104
Types of Tax Rates	106
Composition of Taxes	107
Who Pays the Tax?	108
Government and the Rules of the Game	108
Government and Regulation	108
The Rest of the World	109
Application I: Business Firms, Profit Maximizers or Agents of Social Responsibility?	110
The Effect of Competition on Business Morals	110
Responsible to Whom?	111
Maximizing Profits: Serving Private or Public Interests?	111
Maximizing Profits: Competition and the Invisible Hand	112
When May Markets Punish Socially Responsible Behavior?	113
Can or Should Firms Decide What is in Society’s Interest?	113
Summing Up	114
Key Terms	117
Questions	117
Section II:	
The Basics of the Macroeconomy	119
Chapter 5: Measuring Domestic Income and Product	121
Background: Why is National Economic Accounting Important?	122
The Expenditure and Income Approaches	123
Gross Domestic Product and Gross Domestic Income	124

Gross Domestic Product (GDP).....	124
Gross Domestic Income (GDI)	127
Changes in U.S. Income Accounting: From GNP to GDP	128
Gross Domestic Product Contrasted With Gross National Product.....	128
Which is Greater: GDP or GNP?	129
Current, Constant, and Per Capita Real GDP	129
Output Excluded from GDP.....	131
Economic Transactions Excluded from GDP	131
Net National Product and Net National Income	132
Net National Product (NNP).....	132
Net National Income (NNI)	133
National Income (NI).....	134
Personal Income (PI).....	134
Disposable Income (DI)	135
Final-Value and Value-Added Methods	137
Application I: Does GDP Growth Measure Improving Human Well-being?.....	139
What GDP Does Not Include.....	139
Cost of Pollution	140
What Does Contribute to Well-being?.....	140
Is Further GDP Growth Desirable?.....	141
Measures of Economic Welfare: A Caveat.....	142
Summing Up	142
Key Terms	144
Questions	145
Chapter 6: Economic Fluctuations, Unemployment and Inflation	147
Fluctuations: Characteristics and Clues	148
Types of Economic Fluctuations	148
Phases of a Business Cycle.....	149
Durable- Versus Nondurable-Goods Industries	149
Some Causes of Economic Fluctuations: A Preliminary Look	150
Leading Economic Indicators	151
Unemployment.....	152
Kinds of Unemployment.....	152
Problems That Accompany Unemployment.....	154
Economic Costs of Unemployment: The GDP Gap	154
Psychological and Social Costs of Unemployment.....	156
Prices and the Problem of Inflation.....	156
Theories of Inflation.....	156
Effects of Inflation and Deflation	158
Employment and Prices	162
Application I: Defining Full Employment.....	164
What is the “Natural Rate” of Unemployment for the U.S.?.....	164
What is the Natural Rate for the U.S.?.....	165
Can We Lower the Natural Rate?	166
Has the Natural Rate Fallen? Evidence from the 1990s	166
Summing Up	166
Key Terms	169
Questions.....	170
Chapter 7: Aggregate Demand and Aggregate Supply	173
Aggregate Demand: Its Definition and Determinants	175
Consumption Expenditures	175
Investment Expenditures	176

Government Expenditures	176
Net Exports (Exports Minus Imports)	176
Aggregate Demand: A Summary	177
Why Does the Aggregate Demand Curve Slope Downward?	177
Aggregate Supply: Its Definition and Determinants	178
Why Does the (Short-Run) Aggregate Supply Curve Slope Upward?	179
Equilibrium and Full Employment May Not Be the Same	180
When Real Income and the Price Level Change	181
Shifts in Aggregate Demand and Aggregate Supply	181
Aggregate Demand Shifts: Their Effects and Some Causes	181
Aggregate Supply Shifts: Their Effects and a Cause	182
Ranges of Aggregate Supply	183
Supply-Side Economics	184
Measuring the Aggregate Price Level: Price Indexes?	184
Indexes of Prices	184
Computing the GDP Price Index or Deflator	185
The Consumer Price Index: Its Importance	186
Application I: Demand and Supply Shocks: OPEC in the 1970s and 1980s, a War on Terrorism and a New Supply Shock in the 21st Century.....	187
The OPEC Shocks	188
Minimizing the Supply Shock	189
A Reverse Supply Shock	190
Oil Prices in the Late 1980s? The 1990s? The Twenty First Century?	190
2001: The Economics of a War on Terrorism	190
Rising Oil Prices Since 2004	190
A War Economy	190
Negative Economic Effects	191
Positive Economic Effects	191
What Really Happened: Summing Up and A Few Caveats	192
A few caveats.....	192
Summing Up	193
Key Terms	197
Questions.....	198
Chapter 8: Aggregate Spending in the Macroeconomy	201
Say's Law.....	202
Savings, Investment, and Money Markets	203
Wage-Price Flexibility	205
What About Say's Law?	206
The Abstinence Theory of Interest: Not True Said Keynes	207
Lack of Wage-Price Flexibility.....	208
Aggregate Supply: The Keynesian Assumptions	209
Consumption, Savings, and Investment.....	211
The Savings Function.....	214
A Change in Consumption and Savings	215
The Intended Investment Function	217
What Determines Autonomous Investment?	217
How Much Investment Will People Make?.....	218
Instability of Investment	218
How Does Investment Fit Into Our Model?.....	220
Summing Up	221
Key Terms.....	224
Questions.....	224

Chapter 9: Equilibrium in the Macroeconomy	227
Stage I: No Government Spending Or Taxes.....	228
The Basic Model	228
Savings Equals Intended Investment	228
Planned and Actual Investment	231
Aggregate Demand Equals Aggregate Supply	231
Average and Marginal Propensities to Consume and Save	233
How Changes in Aggregate Demand Affect Changes in Income: Multiplier Effects	237
Why a Multiple?.....	238
The Multiplier Formula	238
Instantaneous Multipliers Versus Periodic Multipliers.....	239
The Paradox of Thrift	242
Adding Government Expenditures to the Basic Model	243
One Approach: Savings Equals Intended Investment Plus Government Expenditures.....	244
Another Approach: Aggregate Quantity Demanded Equals Aggregate Quantity Supplied.....	246
Adding Taxes to the Basic Model.....	247
One Approach: Savings Plus Taxes Equals Intended Investment Plus Government Expenditures.....	248
Another Approach: Aggregate Quantity Demanded Equals Aggregate Quantity Supplied.....	249
Deflationary and Inflationary Gaps.....	251
The Deflationary Gap	251
An Inflationary Gap	252
The Balanced-Budget Multiplier	253
Fiscal Policy.....	254
Is There a Self-Correcting Mechanism for the Economy?.....	254
Application I: The Modern U.S. Economy: A Record of Growth, Recession, and Depression.....	258
The Roaring 20s.....	258
The Great Depression: Phase I.....	259
Weak Recovery: 1933-1937	260
The Recession of 1937-1939	260
The Early Forties and World War II.....	261
The Postwar Boom: 1945-1948	261
The Recession of 1949 and the Expansion of 1950-1953.....	261
The Recession of 1954 and the Expansion of 1955-1957.....	262
The Recession of 1958.....	262
Weak Recovery in 1960-1961 Followed by the Expansion of 1962-1969.....	262
Inflation and Unemployment in 1970-1971: Wage and Price Controls in 1971-1973	263
Inflation and Unemployment Again: 1974 to 1976	263
Recovery: 1977 to 1979.....	264
Recession Followed by Growth and Deficits: 1980-1989	264
1991-2007	264
2008-2011	264
A Judgment About Stability.....	265
Summing Up	265
Key Terms	269
Questions	270
Chapter 10: Fiscal Policy, Deficit Financing, and the National Debt	273
Discretionary Versus Automatic Fiscal Policy	274
Keynesian Arguments About Fiscal Policy	274
Deficit Finance and the Public Debt	274
Deficits and the Gross National Debt.....	275
Growing Concerns About the Federal Deficits.....	276
What are the Major Concerns?.....	277
Unfounded Concerns About the Debt and Deficit	279

Will Federal Deficits and Growing Debt Bankrupt the Nation?	280
Will Federal Deficits and Growing Debt Burden Future Generations?	280
Debts, Deficits, and the Balance of Trade	281
Traditional Arguments About Budget Deficits and Trade Deficits	282
An Alternative to the Traditional View	283
Rethinking the American Fiscal System Since the 1990s.....	283
Efforts at Change Already Made	284
Budget Legislation Since the 1990s.....	284
Proposals for Further Change	284
What Should be Government’s Share of the GDP Pie?.....	286
A Recap.....	286
Application I: The “Share Economy,” A Replacement for Keynesian Demand Management?.....	287
A Two Wage System	287
Critiques of the Share Economy	288
What is the Status of the Share Economy?	289
Application II: The National Debt: Where are we Headed?.....	289
Summing Up	290
Key Terms.....	293
Questions.....	293

Section III:

Economic Policy in the Macroeconomy297

Chapter 11: Money in the Modern Economy299

Barter: An Early System of Exchange;.....	300
Money: A More Modern System of Exchange	300
The Functions of Money	301
Characteristics of a “Good” Money	302
The Supply of Money: How to Define and Measure It	302
Coins and Gresham’s Law	303
Money Is Debt.....	304
Measures of the Money Supply	304
M1	304
M2.....	305
M3.....	305
Summing Up the Money Supply.....	305
Near Monies, Liquidity, and Credit Cards	306
Credit Cards	306
The Origins of Commercial Banking: Goldsmith Banking.....	306
The Future of Money, or Can the Computer Replace Currency and Coin?.....	307
The Economy and the Supply of Money	308
The Equation of Exchange.....	308
The Velocity of Exchange (V)	309
Output, Prices, and M (for Money): A Simple First Look.....	310
The Demand for Money: An Alternative	311
Summing Up	312
Key Terms.....	314
Questions.....	314

Chapter 12: Commercial Banking and the Creation of M1 Money315

The Simple Economy: Four Assumptions About a Simple Model.....	315
Money Creation in the Simple Model.....	317
Enter Currency and Coin.....	318
Enter the Government	320

Reserve Requirements.....	321
Enter Many Other Banks.....	323
The Federal Reserve and Clearing Checks	323
Lending by Individual Banks: A Little Goes a Long Way	324
But What About Leakages That Restrain Demand Deposit Creation?	327
The Role of Excess Reserves	328
A Final Word About Excess Reserves	328
Application I: First Steps in Banking.....	329
Summing Up	331
Key Terms	333
Questions	333
Chapter 13: Monetary Policy	335
The Structure of the Federal Reserve	336
General Powers of the Federal Reserve	338
Open-Market Operations	338
The Discount Rate.....	341
The Required Reserve Ratio	342
A Review: How the Fed Nudges the Banking System	343
Specific Powers of the Federal Reserve	343
Margin Requirements on Stocks	343
Regulations X and W	344
Regulation Q.....	344
Deregulation and Financial Markets: The 1980s	344
The “Deregulatory Act” of 1980.....	344
How well has deregulation worked?.....	345
How Sound Are America’s Financial Institutions?	345
Are the Nation’s Financial Institutions Still in Trouble?.....	346
Further Reform of Financial Services.....	347
A Further Movement Toward Competition? Interstate Banking.....	347
Financial Institutions: A Summing Up	347
The Powerful Fed: A Summary of Its Functions	347
The Fed Regulates the Supply of Money.....	347
The Fed Acts as a National Clearinghouse for Checks.....	348
The Fed Issues Paper Currency.....	348
The Fed Regulates and Examines Member Banks	348
The Fed Acts as a Banker’s Bank	348
The Fed Is a Fiscal Agent and Bank for the U.S. Treasury	349
The Fed Is a Fiscal Agent for Foreign Central Banks and Treasuries	349
Monetary Policy	349
Varying the Supply of Money	349
Varying Interest Rates	349
Some Recommendations on Monetary Policy	350
What to Do When Recession Hits	350
The Monetary Transmission Mechanism: Credit Markets in a Recession	351
A Recession: Enter the Fed	352
Short-run Effects	352
Long-run Effects	353
What to Do When Inflation Hits	354
The Monetary Transmission Mechanism: Credit markets in Inflation	355
The Main Point.....	356
Weaknesses of Monetary Policy	356
Monetarism	359
Application I: How Much Does Money Matter? Monetarists Versus Keynesians.....	359

The Monetarists' Position	359
The Keynesian Defense	360
A Conclusion	361
Keynesian and Monetarist Views: A Summary of Differences	362
Monetary Policy and International Markets Monetary Policy	362
Summing up	363
Key Terms	366
Questions	366
Chapter 14: Economic Policy Controversies	369
Aggregate Supply and Aggregate Demand: A Review	370
How Do We Stimulate Aggregate Supply?	370
Fundamentals of Supply-Side Views	371
Tax Policy, Keynesian Expenditure Reductions or Supply-Side "Wedges?"	371
The Tax Cuts of 1981: How Well Did They Work?	372
Supply-Side Economics: Why So Controversial?	372
The Laffer Curve: Too Much Taxation Reduces Revenue	373
Can Discretionary Policy Changes Alter Growth Anyway? Rational Versus Adaptive Expectations	374
How Influential is Rational Expectations Theory?	375
Beyond Traditional Keynesian and Classical Policy Arguments	375
The Post-Keynesians, Today's Contrarians	376
Summing Up	376
Key Terms	378
Questions	378
Chapter 15: Economic Growth	381
Statics versus Dynamics	381
Sources of Extensive Growth	382
Increasing Productivity and Growth	383
Decreasing Productivity and Growth	384
The Classical View	385
Has the Malthusian Nightmare Occurred in Some Places?	385
Technological Change	386
Population Increase	387
The Importance of an Educated Populace: Human Capital Formation	388
Slowing Productivity Growth in the United States?	388
What is the Implication: A Contrary View	390
Technological Change Again: The Answer to Faster Growth?	390
Has the U.S. Growth Rate Really Fallen?	390
Growth Rate Implications	391
What Could We Do to Increase the Growth Rate?	392
Application I: Will Declining Military Spending Cut Our Growth Rate?	393
Do Wars Keep the Economy Healthy?	393
What About Reaching Potential?	395
Defense Spending: Does It Encourage or Retard Technological Change?	396
What About the Early Twenty First Century?	397
Application II: Must We Sacrifice Growth to Have a Clean Environment?	397
The Economists' View	397
How Population Enters the Picture	398
As Some Ecologists Have Seen It	399
As Many Economists Have Seen It	399
Growth and the Environment: A New Consensus?	400
Summing Up	400
Key Terms	404

Questions	404
Section IV:	
International Trade And Finance	407
Chapter 16: Patterns of International Trade	409
What Makes Up Trade?	409
How Important is Trade to America?.....	410
America’s Balance of Trade and Net Foreign Trade	410
But is Trade as Important to us as to others?	412
The Gains from Trade	413
Trade and Comparative Advantage	414
The Terms of Trade	415
Gains from Trade	416
What Determines Comparative Advantage?	417
Demand Considerations	418
Increasing Costs and Other Cautions	419
The Means of Protection	420
Tariffs	420
Elasticity and the Burden of the Tariff	422
Import Quotas	424
Export Quotas: Rational Ignorance by Consumers?	424
Arguments in Favor of Protection.....	425
The Infant-Industry Argument	425
The National-Security Argument	425
The Cheap-Foreign-Labor Argument	426
The Macroeconomic-Employment Argument	427
Retaliation for “Unfair” Trade Practices.....	428
The Rustbelt: Protecting Declining Industries	428
International Trade Policy Since World War II	429
Regional Trade Agreements.....	429
Current Regional Trade Arrangements	429
Multilateral Free Trade: Its Future	430
Free Trade: A Reprise	430
Application I: Does International Trade Create Development?.....	430
The Relation Between Trade and Development	431
The Classical View	431
Reservations About the Traditional View.....	432
Those With Reservations: Modify Free Trade.....	434
Debt Problems of the LDCs and NICs.....	435
Implications for Trade Policies	435
Application II: Steel Tariffs	436
Summing Up	437
Key Terms	441
Questions	442
Chapter 17: Paying for International Trade	445
An Example of Trade Involving Different Domestic Currencies	445
A Workable International Monetary System	446
Foreign Exchange Markets: Determining Equilibrium Exchange Rates	447
Freely Floating Exchange Rates	447
Advantages and Disadvantages of Floating Exchange Rates	449
Fixed Exchange Rates	450
Exchange Rate Market Intervention.....	450

Adjusting Economies to Fluctuations in the Exchange Rate	451
Means of Adjustment.....	451
The Gold Standard	453
Postwar International Exchange Arrangements.....	455
The Managed or “Dirty” Float: Whither the Future?	456
The Mexican Peso in December 1994: How the International System Works in Crisis	457
The Balance of Payments	458
The Accounts of the Balance of Payments	458
The Current Account	458
The Capital Account	458
The Financial Account.....	459
The Balance of Payments: Deficits and Surpluses.....	459
Deficits to be Financed: Current and Capital Account Balances	459
Application I: Politics and the Balance-of-Payments Problem.....	461
Reasons Behind Import Restraints	461
Protectionism: Costs and Benefits	462
America’s Trade Problem: The Myths	463
Protectionism: Will It Triumph or Fail?	463
Lessons to Be Learned.....	464
Summing Up	464
Key Terms.....	468
Questions.....	468
Chapter 18: Economic Systems—How Many in the Twenty-First Century?	471
Basic Economic Choices: A Reminder.....	471
Evaluating an Economic System	472
Static Efficiency	472
Dynamic Efficiency	472
Property Rights: Should They be Vested in Individuals or in the State?.....	472
Private Property Rights	472
Public Property Rights	473
Why Do Property Rights Matter?	473
Market Capitalism.....	474
Economic Advantages of Market Capitalism	474
Economic Criticisms of Capitalism	475
Planned Socialism.....	475
What is Planned Socialism?	475
Advantages of Planned Socialism	475
Criticisms of Planned Socialism	476
Marx and Socialism	476
Dialectical Materialism	477
Class Conflict.....	477
Falling Profits and the Reserve Army of the Unemployed.....	477
Recurring Business Cycles	478
Marx’s Prediction: The Collapse of Capitalism	478
What Happened to the Collapse?.....	478
Efficiency of Central Planning: The “Fatal Conceit” Problem.....	479
The End of Planned Socialism?	480
Transition from Planned Socialism to Market Capitalism: How Long and How Difficult?	480
Key Reforms	480
Secure Private Property Rights	481
Prices that Reflect Relative Scarcity.....	481
A Monetary System that Permits Price Stability	481
Institutional Reform.....	482

Mixed Economies: A Third System?	482
The End of Socialism: A Disclaimer	482
Economic and Political Freedom: Are They Related?.....	483
Faster Growth.....	483
Political Freedom: Does it Follow from Economic Freedom	483
China: A Test Case?.....	484
Summing Up	485
Key Terms.....	487
Questions.....	487
Glossary	489
Index.....	517
