

Table of Contents

Preface	xvii
---------------	------

Section I: Introducing Economics1

Chapter 1: Breaking the Ice3

The Aims of the Economist	3
Solving Specific Economic Problems.....	4
What Is Economics?.....	5
Macroeconomics and Microeconomics: Economic Principles From Two Perspectives	6
What Is The Economist’s Method?.....	6
The Citizen and Economic Policy.....	8
Applications: Concrete Examples of Abstract Ideas.....	8
End-of-Chapter Summaries.....	8
Mathematics De-emphasized.....	9
Positive Versus Normative Economics.....	10
A Word About Words.....	11
Application I: The Economic Crisis of 2008-2011: Background, Causes, and Effects.....	12
Background.....	12
Causes.....	12
Effects: How Quickly Markets can Change.....	13
Falling Home Prices and the Availability of Housing.....	14
Effects on Governments.....	15
The Effects of the Crisis: A Philosophical Note.....	15
Application II: When Do Government Stimulus Plans Succeed?.....	15
A General Remark.....	16
Application III: Self-Interest, The Key to a More Productive Future?.....	17
Self-Interest: Key to All Characters.....	17
Homo Economicus.....	18
Private Citizens Want Private Profits.....	18
Do Corporations Value Profits Above All Else?.....	18
The Radical View.....	19
The Psychology of Decision Making.....	19
Application IV: Whither Social Security?.....	20
Application V: Compound Interest and why it pays to save.....	21
Application VI: Public Education: Will Vouchers Lead To Improvement?.....	22
Application VII: Where is Health Care Headed?.....	23
The Health Care Reform Act of 2010.....	23
Application VIII: The European financial crisis.....	24
Summing Up.....	25
Key Terms.....	27
Questions.....	28

Chapter 2: Scarcity and Economic Development29

The Results of Market Exchanges: The Invisible Hand	29
Scarcity: Source of Basic Economic Questions.....	30
An Unreal World: No Scarcity.....	31
Back to the Real World: Basic Questions.....	31
Is Scarcity Meaningful Today?.....	32
Viewing the Choices: The Production-Possibilities Curve.....	32
The Production-Possibilities Table.....	33
Graphing the Production-Possibilities Curve.....	34

Economic Growth: Shifting the Production-Possibilities Curve.....	34
Employment, Full Employment, Unemployment, and Underemployment	35
A Word of Caution.....	35
Increasing Opportunity Costs: Why Is The Curve Shaped That Way?.....	36
What Is the (Positive) “Cost of the Lunch”?.....	36
Resources Are Specialized.....	37
Mental Reservations.....	38
A Classical Explanation of Growth: Shifts in Production Possibilities	39
Institutions Play a Very Important Part in Decision Making.....	39
Economic Development: How Do Poor Countries Become Rich?.....	40
Economic Determinism.....	42
Basic Questions About Economic Development	42
How Do You Measure Well-Being?.....	42
How Great Is The Income Gap?.....	43
Adjusting Per Capita GDP Comparisons for Differences in the Cost of Living	44
What Is A Significant Increase In Real Per Capita National Product and Income?	45
Resistances to Growth and Development.....	45
Social and Cultural Resistances	45
Population Growth.....	45
Future Population Growth: Will the Pressures Diminish?.....	46
Technological and Technical Resistances.....	48
Complementary Investment.....	50
What About Natural Resources?.....	51
Is The Income Gap Widening Or Closing?.....	52
Is There Hope For Developing Countries?	54
How Long Will It Take?	55
Summing Up.....	55
Key Terms.....	57
Questions	58

Section II: How Markets Work 61

Chapter 3: Supply and Demand Price Determination in Competitive Markets	63
What Is Competition?.....	64
How Are Prices Set? Supply And Demand.....	64
Demand	64
An Individual Demand Curve	65
Changes in Quantity Demanded Versus Changes in Demand	67
Individual Demand: Summing Up	68
Market Demand.....	69
Supply.....	70
What Is Supply?	70
What Do Supply Data and the Supply Curve Tell Us?.....	71
Why Do Supply Curves Slope Upward?.....	72
Why Do Supply Curves Shift?.....	72
Adding Up To Market Supply.....	73
Summing Up: Difference Between Movements Along and Shifts In Demand and Supply Curves	74
Equilibrium Pricing.....	74
Conditions for Competitive Pricing	77
Application I: Should We Let Supply and Demand Work? Rent Controls and the Price of Housing... ..	77
Government Determined Prices: The Arguments.....	78
Are Rent Controls Effective? (The Best Case).....	78
Are Rent Controls Effective? (The Worst Case).....	79
The Dynamics of Rent Controlled Housing.....	80

Illegal or “Black Markets”	81
The Future of Rent Controls	82
Summing Up	82
Key Terms	85
Questions	86
Chapter 4: The Demand Side of the Market	89
What is Demand?	89
Income and Substitution Effects	90
Theoretical Exceptions to the Law of Demand	91
Utility: Another Way to Explain Demand	93
The Law of Diminishing Marginal Utility	94
Making Choices that Maximize Utility	94
Equilibrium in a World of Many Goods	96
Utility Maximizing Behavior: an Arithmetic Illustration	96
Deriving a Demand Curve	97
Independent Utilities: A Simplifying Assumption	99
Market Demand	99
Elasticity: Estimating Consumer Responses to Price and Other Changes	100
Price Elasticity of Demand	100
Elasticity of Demand and the Slope of a Demand Curve	101
Computing Price Elasticities of Demand;	102
Differing Elasticities of Demand	103
Determinants of the Elasticity of Demand	104
Some Selected Price Elasticities of Demand	105
Why Do Elasticities Matter?	106
Elasticities and Total Revenue	106
Prices Go Up, Some Industries Prosper, Some Suffer	107
Prices Go Down, Some Industries Suffer, Some Prosper	107
Prices Go Up or Down, Revenues Remain the Same	107
Elasticities and Total Revenue: A Summation	107
Why Do Elasticities Matter?	108
An Automobile Industry Example	108
Elasticities and Excise Tax Incidence	108
Price Elasticity and Straight-Line Demand Curves: A Final Note	109
An Implication: Where to Set Price	111
Other Demand Elasticities	111
Income Elasticity of Demand	112
Cross Price Elasticities of Demand	113
Cross Price Elasticity Signs	113
Why Do Cross Price Elasticities Matter? An Illustration	113
Application I: Will Redistributing Income Make People Happier?	114
The Distribution of Satisfaction	114
The Distribution of Income	114
Governments and Income Distribution	115
Summing Up	116
Key Terms	119
Questions	120
Chapter 5: The Supply Side of Competitive Markets	123
What is Supply?	123
What Determines a Firm’s Costs?	123
Explicit and Implicit Costs	124
Profit	124

Accounting Profit and Normal Profit vs. Economic Profit and Economic Loss.....	124
Is Better Burger Profitable?.....	125
Summing Up Profits and Losses	126
The Influence of Time on Supply: Four Periods	126
Market Period.....	126
Short-Run Period.....	127
Long-Run Period.....	127
Historical Period	128
Costs and Supply in the Market Period;	128
Costs and Supply in the Short-Run Period	129
The Law of Diminishing Returns or Variable Proportions.....	129
Short-Run Supply	130
An Example: Some Average and Marginal Costs for Better Burger.....	132
The Role of Fixed Cost;	134
Costs and Supply in the Long-Run Period	134
Supply Curves for a Whole Industry	137
Elasticity of Supply	137
Some Final Words About Supply	138
Application I: Markets for Illegal Goods	138
Pricing Illegal Goods: Alcohol and Narcotics	139
Effect of Illegality on Demand	140
Effect of Legalization on Supply	141
Reverse Price Discrimination Plus Strict Enforcement: An Alternative?	141
Effects of Strict Law Enforcement	142
Reverse Price Discrimination to Some; Strict Enforcement to Others: An Alternative?	143
Illegal Drug Markets: A Summing Up	143
Summing Up.....	143
Key Terms	146
Questions	147
Chapter 6: Market Equilibrium	149
Equilibrium Price	149
Private Equilibrium	151
Social Equilibrium	152
Effects of Externalities	152
A Tax to Create Public Equilibrium;	152
Can Externalities be Internalized?.....	154
Common Property Resources	154
Government and Property Rights	155
How Much Government Intervention is Enough?	155
Spillovers and Government Intervention	156
Application I: How Much Clean Air Do We Want to Buy?	157
Dire Predictions and How to Live with Them	157
The Price of Breathing	158
Enforcing Limits on Air Pollution: Hard Choices	159
Summing Up.....	160
Key Terms	162
Questions	163
Section III: Market Structure	165
Chapter 7: Pure Competition: One End of a Spectrum	167
Market Classifications	167
Characteristics of Pure Competition	168

Pricing Decisions	169
Output Decisions.....	169
Pure Competition in the Long Run	169
Total Revenue and Total Cost.....	170
Profit Maximization: Marginal Cost Equals Marginal Revenue	172
The Competitive Firm's Market Situation.....	173
The Competitive Firm's Conjectural Demand Curve.....	174
Situation 1: Economic Profit	175
Situation 2: Normal Profit	176
Situation 3: Economic Loss with Production	177
Situation 4: Economic Loss with Shut Down	178
Pure Competition, Short Run: A Summary	179
Marginal Cost: The Competitive Firm's Short-Run Supply Curve	181
Pure Competition in the Long Run	182
Increasing-Cost, Constant-Cost, and Decreasing-Cost Industries	183
Increasing-Cost Industries	184
Constant-Cost Industries	185
Decreasing-Cost Industries	185
The Advantages of Pure Competition.....	187
Most Technically Efficient Level of Cost.....	187
Most Allocatively Efficient Combination of Products	188
Welfare of Buyers and Sellers: Consumers' and Producers' Surplus	189
Benefits to Consumers: Consumers' Surplus	189
Benefits to Producers: Producers' Surplus	190
Competitive Equilibrium: Maximum Benefits to Consumers and Producers	191
The Disadvantages of Pure Competition	192
The Relevance of Pure Competition	193
Application I: Do We Really Want Competition?.....	194
Origins of Government Intervention	195
No Bed of Roses: Agricultural Economic Problems	195
Demand	195
Supply: Short Run	197
Supply: Long Run	198
Continuity of Production	198
Technological Change	199
The Agricultural Support Program	200
Efforts to Reduce Direct Government Intervention	201
Back to Government Intervention: 1976 through 1989	201
Government Intervention on the Demand Side	201
Has Intervention Worked?.....	202
Did the Agricultural Support Program Help All Agriculture?	203
Exports	203
U.S. Agricultural Policy: A Reprise	203
Summing Up	204
Key Terms.....	207
Questions.....	208
Chapter 8: Pure Monopoly: The Other End of the Spectrum	211
Pure Monopoly: A Definition	211
Barriers to Entry	213
Pure Monopoly: MR, AR, and D	215
Elasticity of Demand	216
Pure Monopoly: Short Run	217
Pure Monopoly: Long Run	220

Pure Competition Versus Pure Monopoly	222
Monopolies and Supply Decisions	224
Utilizing Technology Effectively: Natural Monopoly	224
Monopoly and the Creation of Technology	225
Technology: Dynamics Versus Statics	225
Regulated Monopoly	227
Cost Overstatement Under Regulation: An Example	228
Regulation of (Multi-firm) Monopolistic Industries: An Airline Example	228
Price Discrimination	229
Conditions Necessary for Price Discrimination	229
Graphic Analysis of Price Discrimination:	230
Welfare Effects: A Comparison of Monopoly and Competition	231
The Welfare Effects of Price Discriminating Monopoly	233
Application I: Regulation Versus Deregulation, When are Airline Markets Contestable?.....	233
Transportation Regulation: Public Interest or Industry Captured?	233
The Industry Under Regulation	234
What to Expect from Deregulation: A Brief Review	234
Deregulation: The Short Run	235
Deregulation: The Long Run and Reconcentration	235
Airline Mergers	236
Contestability and the Number of Firms	236
Barriers to Entry	236
Reregulation?	236
Summing Up.....	237
Key Terms	240
Questions	240
Chapter 9: Imperfect Competition: Monopolistic Competition and Product Differentiation	243
What is Monopolistic Competition?	244
Sources of Product Differentiation	245
Advertising	245
Product Differentiation and the Price Elasticity of Demand.....	246
Monopolistic Competition: The Short Run	248
Competition: A Reprise	249
The Four Short-Run Profit and Loss Positions of a Typical Monopolistically Competitive Firm	249
Monopolistic Competition: The Long Run	251
An Exception to Normal Profit	252
Monopolistic Competition: The Excess Capacity Argument.....	253
Monopolistic Competition: A Caveat	254
A Policy Question: Is Monopolistic Competition Often as Close as We Can Get and Want to Get to Pure Competition?.....	254
Forms of Differentiation: A Reminder	254
Conclusions About Monopolistic Competition	256
Summing Up.....	257
Key Terms	258
Questions	258
Chapter 10: Oligopoly: Imperfect Competition Among the Few	261
Definition of Oligopoly	261
Oligopoly.....	261
Number of Firms: Small	262
Product: Both Homogeneous and Differentiated	262
Barriers to Entry: Substantial	263
Behavior of the Oligopolistic Firm	263

How May Interdependent Firms React? Organization and Collusion	263
Class I Oligopolies: Organization and Collusion	264
Efficiency Effects of Class I Oligopolies	264
Social Reaction to Class I Oligopolies: The Antitrust Laws	265
Class II Oligopolies: Unorganized But Collusive	266
Efficiency Implications of Class II Oligopoly	267
Class III Oligopolies: Unorganized, Non-Collusive	268
The Kinked Demand Assumptions	268
Kinked Demands, Sticky Prices, and Sluggish Output: Is This the Worst of Oligopoly?.....	269
Relevancy of Kinked Demand Oligopoly	270
Non-price Competition Among the Few	271
Styling	271
Services	271
Quality	271
Advertising	272
Profit Maximization: Fact or Fancy?	276
Profit Maximization: Summing Up.....	278
Oligopoly: Summing Up	278
But are Costs Lower in Competitive Industries?	279
Application I: Some Cases of Oligopoly Behavior.....	279
Class I Oligopoly: Organization and Covert Collusion in the Electrical Equipment Industry	279
Class II Oligopoly: Unorganized But Tacit Collusion in the Steel Industry	281
Class III Oligopoly: No Dominant Firm in the Soft Drink Industry	284
The Edgeworth Model of Duopoly	284
Summing Up	286
Key Terms	290
Questions.....	291

Section IV: The Roles of Government In a Market Economy295

Chapter 11: Government and the Modern American Economy	297
Government and Antitrust: The Rule of Reason	298
Mergers and Antitrust	298
Are Big Firms Bad for the Economy?	299
Are Firms “Too Big to Fail” a Threat to the Economy?.....	300
What May the Future Hold?	301
How Important is Static Pure Competition?	301
How Competitive is the U.S. Economy? More Antitrust or Less?	302
Why the Increased Competition from 1958 to 1987?	304
Antitrust Laws: Changes in the Future?	304
Public Choice: Can Economic Principles Explain Government Decisions?	305
The Economy: The Name of the Game and the Rules.....	305
What is a Fair Game?.....	306
Rules and Rule Changes	306
Public Choices in American Democracy: Whose Tastes Count Most?	307
The Median-Voter Model	307
Denying the Median Voter: Logrolling	308
No Clear Winners: Cyclical Majorities	308
Representative Versus Direct Democracies	309
What are the Objectives of Public Choice Makers?	309
Rational Ignorance	310
Public Choices: How are Costs and Benefits Distributed?.....	311
When Special Interests Seek Rents.....	312
How To Seek Rents: Political Action Committees.....	313

How Does Rent Seeking Affect Efficiency?.....	314
Resources Going Underground: The Role of Government	315
Is Public Choice Anti-Government?	315
Application I: The Dairy Lobby, Are Both Consumers and Cows Milked?.....	316
A Model of the Milk Market.....	316
The Experience of Milk Price Supports.....	317
How Much Does the Milk Program Cost?.....	317
Why Not a Competitive Milk Industry?	318
Why Don't Consumers Resist?	319
Summing Up.....	319
Key Terms	323
Questions	323

Section V: The Factor Markets 327

Chapter 12: The Factor Markets: Not Only Products Are Sold329

What are Factor Markets?	329
Factors: Supply and Demand	330
What Determines the Demand for Factors?	330
An Example of Factor Demand	331
To Maximize Profit, Minimize Cost	334
Demand for a Resource by the Market as a Whole.....	334
Elasticity of Demand for a Resource.....	335
Income Distribution: “Fair” or “Unfair?”	336
Demand for Resources Among Monopolistic Firms.....	336
Product Monopoly: Is it a Problem in Factor Markets?	339
Application I: How Much Education Should We Buy?.....	340
Society’s “Purchase” of Education	343
Summing Up.....	344
Key Terms	347
Questions	348

Chapter 13: How Wage Rates and Other Factor Prices are Determined351

Wages: Competitive Versus Noncompetitive	351
Why Not a Single Wage Rate?.....	354
Different Skills and Different Supplies of Skills	354
Different Wages and Same Skills	354
How Wages are Set: Competitively Priced Labor	356
How Wages are Set: Noncompetitively Priced Labor	357
Situation A: Monopsony in the Labor Market, Competition in the Product Market	358
How Many Jobs to Offer: $MRP = MRC$	360
Situation B: Monopsony in the Labor Market, Monopoly in the Product Market	360
Monopsony and Competition Compared in Labor Markets	362
Monopsony: A Summary Point.....	364
Professional Sports and Monopsony	364
Situation C: Bilateral Monopoly	365
An Important Point About Bilateral Monopoly	366
Exclusive and Inclusive Unions	366
Other Strategies: Ways to Increase Jobs and Wages	367
The Government Steps In: Minimum-Wage Laws	367
The Past and Future of Minimum-Wage Laws	369
The Evidence: Monopsony Versus Competitive Labor Markets.....	370
More About Wage Discrimination	370
What is Economic Discrimination?	371

Understanding Discrimination	371
What are the Consequences of Crowding?	372
Unequal Wages for Equal Jobs	373
A Note of Caution	374
What Can Be Done About Discrimination?	375
Public Action	375
Private Action	375
Unions	375
Creating Entrepreneurs	376
Other Factors of Production: Land, Capital, and Entrepreneurship	376
Land and its Rent	376
Rents as Signals: Valid or Not?	377
Quasi Rents or Common Rents	378
Capital and Interest Rates	379
Government and the Capital Market	381
Entrepreneurship and Profit	381
Is Profit Earned?	382
Application I: Comparable Worth, Market Distortion or Sensible Correction for Discrimination? ...	383
Two Views About the Earning Gap	383
Discrimination or Voluntary Choice: The Evidence	384
Choice of Occupation	385
Group A Versus Group B: A Policy Synopsis	385
Group A: Policy Recommendation	385
Group B: Policy Recommendation	385
Comparable Worth: More Fairness or Fewer Jobs?	386
The Argument Against Comparable Worth	386
The Case for Comparable Worth	387
What are Large or Small Costs and Benefits?	387
Comparable Worth: Its Future	388
Summing Up	388
Key Terms	394
Questions	394

Section VI: International Trade And Finance397

Chapter 14: Patterns of International Trade	399
What Makes Up Trade?	399
How Important is Trade to America?	400
America's Balance of Trade and Net Foreign Trade	400
But is Trade as Important to us as to others?	402
The Gains from Trade	403
Trade and Comparative Advantage	404
The Terms of Trade	405
Gains from Trade	406
What Determines Comparative Advantage?	407
Demand Considerations	408
Increasing Costs and Other Cautions	409
The Means of Protection	410
Tariffs	410
Elasticity and the Burden of the Tariff	412
Import Quotas	414
Export Quotas: Rational Ignorance by Consumers?	414
Arguments in Favor of Protection	415
The Infant-Industry Argument	415

The National-Security Argument	415
The Cheap-Foreign-Labor Argument	416
The Macroeconomic-Employment Argument	417
Retaliation for “Unfair” Trade Practices	418
The Rustbelt: Protecting Declining Industries	418
International Trade Policy Since World War II	419
Regional Trade Agreements	419
Current Regional Trade Arrangements	419
Multilateral Free Trade: Its Future	420
Free Trade: A Reprise	420
Application I: Does International Trade Create Development?	420
The Relation Between Trade and Development	421
The Classical View	421
Reservations About the Traditional View	422
Those With Reservations: Modify Free Trade	424
Debt Problems of the LDCs and NICs	425
Implications for Trade Policies	425
Application II: Steel Tariffs	426
Summing Up	427
Key Terms	431
Questions	432
Chapter 15: Paying for International Trade	435
An Example of Trade Involving Different Domestic Currencies	435
A Workable International Monetary System	436
Foreign Exchange Markets: Determining Equilibrium Exchange Rates	437
Freely Floating Exchange Rates	437
Advantages and Disadvantages of Floating Exchange Rates	439
Fixed Exchange Rates	440
Exchange Rate Market Intervention	440
Adjusting Economies to Fluctuations in the Exchange Rate	441
Means of Adjustment	441
The Gold Standard	443
Postwar International Exchange Arrangements	445
The Managed or “Dirty” Float: Whither the Future?	446
The Mexican Peso in December 1994: How the International System Works in Crisis	447
The Balance of Payments	448
The Accounts of the Balance of Payments	448
The Current Account	448
The Capital Account	448
The Financial Account	449
The Balance of Payments: Deficits and Surpluses	449
Deficits to be Financed: Current and Capital Account Balances	449
Application I: Politics and the Balance-of-Payments Problem	451
Reasons Behind Import Restraints	451
Protectionism: Costs and Benefits	452
America’s Trade Problem: The Myths	453
Protectionism: Will It Triumph or Fail?	453
Lessons to Be Learned	454
Summing Up	454
Key Terms	458
Questions	458
Chapter 16: Economic Systems—How Many in the Twenty-First Century?	461

Basic Economic Choices: A Reminder	461
Evaluating an Economic System	462
Static Efficiency	462
Dynamic Efficiency	462
Property Rights: Should They be Vested in Individuals or in the State?.....	462
Private Property Rights	462
Public Property Rights	463
Why Do Property Rights Matter?	463
Market Capitalism.....	464
Economic Advantages of Market Capitalism	464
Economic Criticisms of Capitalism	465
Planned Socialism	465
What is Planned Socialism?	465
Advantages of Planned Socialism	465
Criticisms of Planned Socialism	466
Marx and Socialism	466
Dialectical Materialism	467
Class Conflict.....	467
Falling Profits and the Reserve Army of the Unemployed.....	467
Recurring Business Cycles	468
Marx’s Prediction: The Collapse of Capitalism	468
What Happened to the Collapse?.....	468
Efficiency of Central Planning: The “Fatal Conceit” Problem.....	469
The End of Planned Socialism?	470
Transition from Planned Socialism to Market Capitalism: How Long and How Difficult?	470
Key Reforms	470
Secure Private Property Rights	471
Prices that Reflect Relative Scarcity.....	471
A Monetary System that Permits Price Stability	471
Institutional Reform.....	472
Mixed Economies: A Third System?	472
The End of Socialism: A Disclaimer	472
Economic and Political Freedom: Are They Related?.....	473
Faster Growth.....	473
Political Freedom: Does it Follow from Economic Freedom	473
China: A Test Case?.....	474
Summing Up	475
Key Terms	477
Questions.....	477
Glossary	479
Index.....	507
